Matthieu Vagnon

Freelance React Front-End Engineer and Digital Designer
Lyon, Auvergne-Rhône-Alpes, France

Summary

Please unroll to see tech stack.

Experienced front-end engineer and UI designer specialized in Next.js, leveraging French academic excellence to deliver high-quality web applications and websites from the design phase to development.

Highly adaptable and detail-oriented, I excel in identifying and implementing the most effective solutions to complex problems. My expertise extends to AI-powered applications, where I bring significant added value by designing and developing intuitive, high-performance user interfaces that enhance AI-driven experiences.

Front-End Stack
- React.js
- TypeScript
- Tailwind CSS
- Motion
- Next.js
- Vite.js
- Payload CMS

Design Stack
- Figma
